### DETAILED ACTION

The following is an examiner's statement of reasons for allowance: Applicant's arguments filed 6/14/2004 with respect to claims 1, 6, 7 and 9-16 are deemed persuasive. Claims 2, 3, 5 and 8 were indicated as allowable by the Office Action of 4/13/2004. An updated search reveals Islam et al (6,574,037). Figure 14 of this reference discloses an optical amplifier comprising: a plurality of Raman amplifying fibers (1410 and 1420) and means (1470 and 1480) for pumping the respective fibers at different wavelengths corresponding to different amplification bands. However, there is no teaching or suggestion that the composition of the respective optical regions of the fibers be different.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Mark Hellner at telephone number 703 306 4155.
